

PRESS RELEASE

Hiller New England Fire Protection, Inc. names John Chelo as System Sales Engineer for the New England area.

Located in Wilmington, Massachusetts, Hiller New England Fire Protection Inc. (Hiller New England) is the areas leading supplier of special hazard fire detection and suppression systems. The company represents top quality suppliers and has the experience to design, install, service and inspect specialty systems throughout the New England region.

Hiller New England's most recent staffing accomplishment is their new System Sales Engineer, John Chelo. John is a highly accomplished engineer, specializing in fire protection and suppression systems. According to Peter Hanson, the companies System Sales Engineer/General Manager, "John is a customer solutions-focused and extremely experienced sales engineer, with the knowledge and experience to provide full turnkey product and project support to our clients".

John graduated from Wentworth Institute of Technology with a B.S. in Mechanical engineering technology. He has close to 25 years of engineering and fire protection experience working for major manufacturers and engineering firms nationwide. "Experience and strong customer support are what helps to differentiate the Hiller organization" said Jim Kidd, a 45 year veteran of the fire protection industry, and an engineering graduate of Northeastern University. "The Hiller organization has been serving the worldwide fire protection industry for over 90 years. Our reputation, expertise, and solutions-focused approach are what help to make us successful year after year. "

Hiring John was a natural fit for both parties. "I wanted to work with Hiller New England for many years. Hiller has a great reputation, and their expertise in the sales, their technical staff, and after-sales support efforts are top-notch" said Chelo

John will be working alongside Hiller's leading System Sales Engineer, and also the winner of the Nationwide Hiller Special Achievement Award for 2007, Jeffrey Kidd. Jeffrey is a graduate of Wentworth Institute with a degree in Electronic Design Technology. He is certified with the National Institute for Certification in Engineering Technology (NICET) Level IV, Senior Engineering Technician (SET), in Fire Protection Engineering Technology, Special Hazards Systems Layout.

Jeff has been involved with the supervision of design, installation, commissioning, and testing of Special Hazards Systems for more than 18 years.

Please join us as we welcome John Chelo to the Hiller team.
